Senior Project Manager – Construction

Fastned Denmark | Copenhagen | Permanent position

Do you want to lead the construction of next-generation EV charging infrastructure in Denmark?

Axon Interim is recruiting an experienced Senior Project Manager – Construction on behalf of Fastned, one of Europe's leading developers and operators of ultra-fast electric vehicle charging stations.

Fastned is expanding its Danish charging network and is looking for a technically strong, structured and commercially aware Project Manager to take responsibility for delivering construction and infrastructure projects.

The position

You will be part of Fastned's Danish team in Copenhagen, working closely with the international construction organization.

Your responsibilities will include:

- Planning and delivering multiple EV charging station construction projects, from development handover through commissioning.
- Managing project schedules, budgets, milestones, risks and dependencies.
- Coordinating grid connections, permitting processes and technical documentation.
- Working closely with contractors, engineering consultants, authorities, grid operators and suppliers.
- Supporting tendering, procurement, negotiations and contractor mobilisation.
- Ensuring structured project reporting and clear communication with stakeholders.
- Driving progress and resolving technical and operational challenges proactively.

You will report to the Sr. Construction Lead Emerging Markets and collaborate with colleagues across Denmark and Europe.

Your background

We expect you to bring:

- Approximately 5–10 years of relevant project management experience.
- Experience in construction, infrastructure, technical deployment or related industries.

- Strong project management skills combined with technical understanding and excellent planning experience.
- Experience managing multiple projects and external stakeholders.
- Strong communication, negotiation and reporting skills.
- Excellent English skills.
- Confidence using digital project management and reporting tools.

Experience with electrical infrastructure, grid connections or energy projects is an advantage, but not essential.

A relevant technical education is preferred, although proven project delivery experience is equally important.

Your personal profile

You are proactive, hands-on and solution-oriented, while maintaining the structure and overview required to manage several parallel projects.

You communicate clearly, take ownership of results and are comfortable working independently within a small, international team.

Fastned offers

An opportunity to play a key role in developing Denmark's fast-charging infrastructure while joining a growing international organization focused on accelerating the transition to sustainable mobility.

The position is full-time and primarily based at Fastned's Copenhagen office at BLOXHUB, with travel to project locations as required.

Regular office presence is important, and candidates should preferably be able to reach the office within approximately one hour by public transport.

Interested?

Please submit your CV and a short description of your relevant experience here: https://candidate.hr-manager.net/ApplicationInit.aspx?cid=3194&ProjectId=143590&DepartmentId=18956

Applications will be reviewed on an ongoing basis.
